FRESH GREEN WOODS

简洁明快

清新绿林

Green is closely associated with nature and reminds people of healthy elements such as forests, meadows, and fresh air. The use of a large amount of green in the pharmacy environment can subtly enhance customers' awareness of the professionalism and health of drugs and services in the store, which is in line with the industry attributes of pharmacies.

SIMPLE AND STYLISH

木质馨逸

Wood can create a warm and comfortable shopping environment, which is conducive to narrowing the distance between pharmacies and customers and improving the stay time of customers. Soft olive horizontal green and warm wood tones complement the village. It can help to eliminate the cold medical feeling usually associated with drugstores, and instead build a friendly space like home, which is conducive to building customer trust and loyalty.

LIGHT AND ELEGANT BLUE

The pharmacy is designed with light blue as the main color, creating a fresh, tranquil and professional environment. Light blue conveys an atmosphere of calmness, trust and care.

Pharmacy清韵印象

In the design, it may integrate modern simplicity and traditional Chinese medicine elements to create a fresh and elegant shopping environment with rich cultural heritage, which is in line with the trend of young people pursuing personalized and experiential consumption. In view of the phenomenon of modern young people sitting in the office for a long time, life pressure, sub-health status, accurate positioning, to provide a series of targeted products.

PHARMACY

DESIGN

With tasteful blues as the main theme, it gives the space tranquility and professional rhyme, and the multiple shelves are scattered. The antique Chinese medicine cabinet embedded in it is low-key but not lost focus, cleverly integrating tradition and modernity, creating a unique charm and peace of mind for customers.

GTZLI

好药师 大药房
SMART PHARMACY

With deep blue as the main theme, playing a quiet and professional harmonious movement, multiple shelves are scattered, like musical notes jumping in the space dimension, giving the store rich levels, but also create a spacious and transparent shopping atmosphere, and Chinese medicine cabinet as a treasure inlaid among them, low-key through the noble, both eye-catching and natural with the overall environment.

新中式风格

New Chinese style

A cultural palace that conveys traditional Chinese aesthetics and wisdom, allowing people to experience the extraordinary charm of traditional Chinese medicine while healing the body. The whole store is mainly in sandalwood color and white, which makes people feel the deep historical heritage of Chinese medicine, and conveys the brand value with the image of ancient charm.

ANCIENT STYLE PHARMACY

The beauty of the design of the national style pharmacy is like a vivid scroll of traditional Chinese medicine culture, skillfully integrating classical charm and modern style, which makes people linger. In the leisurely fragrance of medicine, the quaint wooden medicine cabinets are scattered, like solidified lines of poetry, telling the wisdom of plants and trees for thousands of years; Step by step, as far as the eye can see, it is the creative interpretation of the essence of Chinese medicine, so that people can immerse themselves in this journey of Oriental aesthetics across time and space.

MUSEUM PHARMACY

古风药房

中药柜本身就是中医药文化的载体

To balance the traditional and modern design elements of Ancient style pharmacy , the key lies in cleverly extracting the spiritual connotation and visual symbols of traditional elements, innovating and integrating them with modern design techniques to create a space rich in cultural heritage and in line with modern aesthetic and functional needs.

NEW CHINESE

While retaining the unique wooden texture, Chinese medicine cabinet lattice, carved window lattice and other elements of ancient pharmacies, the new Chinese medicine pharmacy integrates simple lines, bright colors and other modern design languages, which not only highlights the deep heritage of traditional Chinese medicine culture, but also exudes the vitality and fashion sense of modern life.
